

## New and improved Alarm App

- It will seem like any other alarm app
- My app will include preset photos or videos plus sounds for all the pre alarms
- My app will have pre alarms
  - This will include but can be changed
    - Wake up alarms preset to 6:00am every day
    - Dinner alarms preset to 8:00pm every day
    - For the students an end of school alarm preset to 4:00pm every weekday
    - For working adults an end of work alarm preset to 5:00pm every weekday
- The alarms can be used in full screen mode or just a small notification
- This app also works as a calendar so you can set specific dates with specific alarms
- For the calendar
  - Can include a picture, video, or sound for the day marked
  - Preset dates for holidays or special dates with pictures and sounds already included for that date
- The user can upload any sound, video, or photo from their phone into the app
- Can also adjust the way the sound and video are played
- Has both a light and dark mode
- Can look up different time zones
- Can set the app to a specific theme
- Only in App purchase is for extra themes which will cost only \$0.99
- The App will ask questions when first going into the app
  - The questions include
    - Name, birthdate and email address
      - The email address will allow access to any calendar invite sent to email.
    - It will ask if you want to enter another email address
    - Select mode and theme
    - Will then ask if you want extra themes
    - It will ask how they want their notifications
      - Full screen, Half screen, Top down
    - Then will ask if you agree with the terms and conditions
- Any changes for the questions above will be in settings not including terms and conditions
